NLP BASIC PRACTITIONER CERTIFICATION PROGRAM

ABOUT US

Our journey began in 2011 with shared passion and a desire to create meaningful opportunities for Armed Forces' wives.

As we explored ways to support others, we realized that building our own expertise was the first step. This led us to the world of Neuro-Linguistic Programming (NLP), a journey that transformed not only our professional capabilities but also our personal lives.

What began as a pursuit of professional excellence soon became a life-changing path of personal growth and transformation. NLP training opened new perspectives, deepened our understanding of human potential, and eventually led us into the world of coaching. From this journey, WINGS Coach was born.

Today, we have a pan India team of qualified and experienced Life Coaches, who transform lives and help clients live their dreams.

From a simple idea to a thriving community, our purpose remains unchanged: empowering people to discover their strengths, spread their wings, and create lives they love.

WHAT WE DO

NLP Based Training & Facilitation

Our training programs enhance organizational efficiency through structured, NLP-driven modules that improve productivity by helping individuals break through unseen barriers that limit performance and growth.

NLP Certification Programs

NLP can transform the way people think, learn, and communicate through simple yet powerful techniques. These programs teach practical methodologies that can enable shifts ranging from subtle changes to profound transformation.

Life & Performance Coaching

We are able to provide a suitable balance between life issues and performance objectives, thereby removing conflict and making room for performance with peace and contentment.

PROGRAMS

NLP Basic Practitioner Certification

Certification by NFNLP-USA

Neuro Linguistic Programming focuses on how to use our **mind** (and thoughts) and **language** (verbal and non-verbal) to bring about a change in our **programmed habitual behaviour**.
