

Learn the skills to think, communicate and respond differently.

A live, immersive online certification in Neuro-Linguistic Programming

LEARN • EXPERIENCE • PRACTISE • INTEGRATE

Neuro-Linguistic Programming (NLP) is a practical framework for understanding how we think, communicate and respond to the world around us. It offers tools to build awareness, improve communication, shift perspectives and develop more resourceful responses.

This programme takes NLP beyond concepts and into practice — giving you an opportunity to experience the techniques, practise them and explore how they can be applied in everyday life and work.

WHAT YOU WILL EXPLORE

UNDERSTAND YOUR MIND	Explore how thoughts, language, perceptions and emotional states influence experience and behaviour.
COMMUNICATE BETTER	Learn rapport, communication patterns and practical ways to connect more effectively.
SHIFT UNHELPFUL PATTERNS	Explore reframing, perspectives, beliefs and behavioural patterns.
CREATE RESOURCEFUL STATES	Learn practical approaches to accessing and managing useful internal states.
DEVELOP AWARENESS	Sharpen sensory awareness and your ability to notice language and behavioural cues.
APPLY NLP IN REAL LIFE	Use NLP skills across personal development, relationships, coaching, leadership and workplace communication.

WHO IS THIS FOR?

Coaches • Trainers • Facilitators • HR Professionals • Managers • Leaders • Consultants • Entrepreneurs • Teachers • Educators • Sales Professionals • Helping Professionals • Individuals interested in personal and professional growth

No prior NLP experience is required.

YOUR TRAINER

Shweta Priyadarshini

Trainer of NeuroLinguistic Programming | NFNLP, USA

Shweta brings a practical, people-centred approach to NLP, combining structured learning with experiential practice. Her focus is on making NLP understandable, usable and relevant — helping participants move from simply knowing a technique to recognising where and how it can create meaningful change in communication, behaviour and everyday life.

THE LEARNING EXPERIENCE

This is not a programme where you simply listen and take notes. Sessions combine concepts, demonstrations, guided exercises and hands-on practice so that you can experience the techniques and begin using them.

LEARN → EXPERIENCE → PRACTISE → RECEIVE FEEDBACK → INTEGRATE
